

# How we will use our money in 2023

We have been richly blessed, so we use the Kingdom resources entrusted us to bless God, each other, and the world.

**Worship** is our expression of love and gratitude to God – worshipping together as a community brings us closer to each other and to God.

**Ministry** is the work of tending to the physical, emotional, and spiritual needs and formation of our members, as we build a community of seekers and Christ-followers.

**Mission** is the opportunity God gives us to bring his love and hope to the world, whether across the street or across the globe.

**Administration** keeps things humming behind the scenes. 70% of this amount is for running CMP; the other 30% goes to the diocese.

Care of our **building and property** allow us to worship God, build community, deliver ministries, and promote mission to spread God's love.
